

Tax is a responsibility of every citizen is living in country to pay the state. Without Revenue government can not run state. There are many reasons here government not collecting the Tax.

So that Reason government opt indirect Tax collection strategy to execute the Administer.

But here is a drawback of GST it imposed on every citizen not on elite class. Small business, street vendor not register with Regulatory Authority. FBR reported only 5000 vendors are registered out of 3 million vendors exist in state.

Government ought to start the awareness campaign, and add in Education curriculum Tax is a moral and legal duty on citizen to pay the state. Government ought to move on privatization of SOE, by this state save millions of rupees per year and earn huge amount. And invest that kind of Project that will return money every year. If our digitalization process work smoothly and merge the different departments to each other digitally, we can generate more revenue.
