neighboring countries, tax-exemptions, criminal activities, unemployment, women discrimination, minorities rights, national interests, agriculture sectors and also with other problems such as difficulty in adapting new technologies or skills AI or IT to compete with rapidly changing world. The only solution of all of these problems is democratic system. Many of the countries face the issue of bringing democratic government, because lack of or almost none of democratic parties in their countries. Same is the case with the Pakistan. Pakistan is an under developing country, which is facing this issue from the day of its freedom from the British and it is still struggling with it. However, many of the countries in the history face the same issue. But, after democratic government in their country, now they are ^{considered} world's ~~one~~ developed and succeeding countries. ~~These~~ Many of them faced world war situation and destroyed in very badly way. Many of them go through poverty and unbalanced situations and now they are developed countries of the world. Such as Japan, Korea, Singapore, Germany and Russia.
