Translation 2017

To know hidden faults, it is necessary to know what our enemy says about us. Our friends mostly praise us. Sometimes they do not consider our faults as something wrong, and because of respect they hide them so we do not get hurt. Because of friendship they ignore our shortcomings. But our enemy observe us closely, searches in every corner, and brings out our faults. Out of enmity, he may also exaggerate our mistakes. Still in what he says there is often some truth. A friend usually highlight our good qualities, but an enemy points out our weaknesses.

Therefore, we should be more thankful to our enemy, because he makes us aware of our faults. From this point of view enemy proves to be better than the friend.
