Date:.....

Day:.....

- 5.3 Encouraging transparency and accountability.
- 5.4 Developing A-I powered tools.
6. Conclusion.

Avoid 1st person pronoun

With every like, share and comment, we are trading our mental well-being for a fleeting sense of validation, and the consequences are staggering: increased anxiety, depression and loneliness.

This highlights the bitter reality of social media. Social media in Pakistan has become an integral part of daily life, with 71.7 million active social media user identities, equivalent to 29.5% of total population. Positive aspects of social media remained dominant as providing increased connectivity, saves time and have given open excess to all sort of knowledge. AI-robotic world have provided enarmous opportunities where billions of active users are connected through social apps and serving internationally.

But having considerable advantages, there ~~are~~ still exists some challenges regarding this.
