5. Conclusion

Essay

Albert Einstein notes that

it has become appallingly obvious

that our technology has surpassed

our humanity. The history of technolo-

gy is a fascinating journey that traces

back from the era of stone tools and

techniques to the modern digital age.

Every era, including stone age,

civilizations like Mayas, Incas, Aztecs, Indus valley and Industrial Revolution have contributed in flourishing knowledge. The advantages and disadvantages

of digital

same can be However sometimes it is

difficult to judge its contribution in progress and it has inflicted harm

Difficult to realise that

humanity. The misuse of digital data

was for the first time highlighted by

when in 1978 an IT consultant frauded

10 bn USD. He went to Switzerland and

CIA took 8 days by CIA to realize

the damage he did. This virus has

now spread across the world. Meanwhile

developed countries took preemptive measures

as well as to ensure the security of public.

In India in developing countries, digital

literacy is increasing rapidly from

personal to professional life. The blessing

of digital age is turning into a curse

and a soft power against opposition. The

misuse of digital data has become a
