Muhammad Abdullah Tayyab:

## Social Media a blessing:-

Outline: → Social Media is an important tool for communication  
→ A Healthy Platform for students → Helps in financial savings  
→ Efficient tools for government servants for resolving issues  
→ Helps in improving literacy rate.

In today's world, social media plays an important role in life. As the world is becoming digital, it has many is important to stay connected with it. As far as its usage is concerned, it helps people to gain knowledge and data on multiple topics depending on their interests.

Social Media is an important tool for communication. It has reduced the distances that were required for communication in the past. In present time, we can see that digital tools for transferring of data and information. For example: <sup>Through</sup> Email, and other social media platforms one can easily send the messages and official files. ~~As in~~

It has also unlimited benefits for students or aspirants depending upon their field of interests. As now everyone can find data or information present on digital platforms like wikipedia, and many websites that offer's <sup>E-library</sup> ~~that~~ <sup>which</sup> ~~are~~ <sup>avoid writing in passive too much please</sup>

②

Students for reading purposes. In short, it has become a source of information for all people.

In today's time, it has reduced Paper work in the government offices contributing towards financial savings which is good for economic stability. Because in previous years files and notifications were printed for sending them to various offices and it also required delivery charges but now the e-se.

It is a strong tool for raising or highlighting any issue and resolving at the earliest. Government officials can use it effectively for conducting e-Kacharis to solve public problems. Many people can also benefit from it like those who cannot come to the office or those who have issues by just sitting at home.

It plays a key role in transforming education sector and improving literacy rate. For example: Higher Education Commission Pakistan has started the provision of e-Courses by Coursera which is indeed a great opportunity for individuals to equip themselves <sup>with</sup> specialized course. The

③

these are  
good thing is that it is free of cost.  
Those who cannot afford higher fees  
for studying or getting admission  
in any college or university can  
avail this opportunity and that leads  
towards the improvement in literacy rate.

#### Conclusion:

In short, social media provides facilities  
to the people of all ages. Everyone can  
get benefit from it if used in effective  
manner.
