

The threat of global warming and ways to counter it.

Points are fine
Write thesis statement

Convey your ideas in a well articulated manner

Prioritize your points which one to be written first

(1) Introduction

(2) Threat of global warming

(i) Increasing intensity of natural disasters (floods - droughts)

(ii) Melting of glaciers

(iii) Rise in sea level

(iv) Increased risk of health issues

(v) Declining economic growth

(vi) Displacement of people

(vii) Exacerbating wild fires

(viii) Conflicts between states

(3) Ways to counter global warming.

(i) Promoting reforestation

(ii) Promoting use of renewable energy resources.

(iii) Ensuring environmental education awareness

(iv) Improving disaster management

(v) Reducing production of green house gases.

(vi) Controlling population explosion

(vii) Promoting sustainable transport

(viii) Global collective efforts toward decarbonization.

(4) Conclusion
