

A paragraph on Pakistan

a nuclear empowered state

Pakistan means "Land of pure people". A country came into being in the name of Islam. It was a vision of Dr. Allama Muhammad Iqbal, but brought to the reality by Qaid-e-Azam Mohammad Ali Jinnah. Pakistan is nestled in the heart of Asia where it is sharing border with China, India, Afghanistan and Iran. The southern border of Pakistan is Arabia sea which alleviates the geostrategic importance of this holy piece of land and makes it pivotal in global arena. Although, Pakistan is naturally blessed with fertile land, water streams, glaciers, rare minerals, lushious green fields and mountains to mineral enriched mountains; still, inefficient use of natural resources, poor governance, political and economical instability has hampered its success. Where there are shadows of darkness, this cloud possess some silver lining. Pakistan's army is 6th largest army in the world and Pakistan is eighth time now member of UN Security Council. Will the above stated facts about Pakistan enlightens its importance for key global players like US, China, Saudi Arabia.
