

TRANSLATION - 2022 Paper

Every era brings along many circumstances that please no one, yet they must be accepted. Sometimes, nature appears to test ~~it~~ us by placing before us many things that are neither of our choice nor related to us, yet we must carry on by accepting them as

part of life. This continues to be the case even today. Every century ~~has~~ has brought with it such changes that were entirely new compared to the previous centuries. The progress of natural sciences and arts has provided mankind with much that can be described as by-products of ^{scientific} ~~intellectual~~ and ^{economic} ~~social~~ activity - when nature gives us fruit; and at the same time it obliges us to dispose of its peels properly. If not done correctly, the environment undoubtedly gets polluted.
