6: CONCLUSION

> "The best time to plant a tree was 20 years ago. The second best time is now."
> Chinese Proverb

As above Chinese proverb shows the importance of timely decisions, it is mandatory in practical life also to plan out long-term policies. Suuess of a nation lies in its stability. Prioritizing the national interests, it is undoubtedly clear that a nation's survival is dependent upon those interests. Countries all around the world set their most important agendas to achieve their goals. In this regards, Pakistan lags behind. There are found very less concerns about development of human. Several

times the ignorance in this regards has fired back. Funding and financing in knowledge is the only way to get rid of recurring issuess in the country. It helps to boost up economic growth, human development, rule of law and environment friendly population. However, there are various obstacles which hinder the country to take the action such as instable economy and political divide.
It can be stated that undoubtedly, financing in knowledge leads to human development. However, there are some factors which hinder investment in it, can be tackled by pragmatic measures to be taken.
