## The Ancient Greek Oracles

According to the author, human beings in their circumstances of life felt the necessity to communicate with their creator.

Humans seek <sup>sought</sup> guidance through soothsayers

knowledge of multiple interpretations. The

soothsayers with specific style of delivering their oracles used to observe

certain <sup>phenomena</sup> phenomena of nature and gave

their interpretations. The author described

other popular knowledge of interpretations as well in ancient Greeks. Including a

superior degree from interpreter's reach;

the essence of god itself in a human

being. The author explained their names,

styles and famous practices of that

time. At that time, it was one of

the pious practices that each oracle

was associated with a specific god

and a proper place organized for it.
