Q. No. 2

Title is missing. Indent the paragraph.

The ad hominem fallacy, a strategy dating back to the Sophists and likely earlier, involves attacking an opponent's character rather than their argument. A classic legal tactic advises defending lawyers to abuse the plaintiff's attorney when they lack a substantial case. Lincoln famously employed this by mocking his opponent's attire to sway the Jury of Frontiersmen, despite having a weaker legal position. The fallacy persists in modern politics as well; President Eisenhower's health was scrutinized to question his capability and Franklin Roosevelt's policies were ultimately dismissed by critics attacking his disability. Ultimately, this approach avoids the actual issue to discredit the individual.

Idea and grammar are fine.

Decent attempt. Spelling errors found.

"An enormous big creature with four legs came to our pool this morning and trampled him down in the mud!" "Enormous was he? Was he as big as this?" said the frog, puffing herself out to look as big as possible. "Oh yes, much bigger," was the answer. The frog puffed herself out still more. Q.7

I wish we could play those games again, such as Grilli Danda, Treasure Hunt, Bua Potay Po, and Hide and seek. If those old days could return, we would feel those moments of joy and carelessness once more. We used to run in the streets with our friends, forgetting the little quarrels that occurred during the day and while playing. Those days have now become memories, and the heart often misses those moments when life was simple, joyful and carefree.
