funding and financing in
knowledge is the only way
to get rid of recurring
issues in the country. It
helps to boost up economic growth,
human development, rule of
law and environment friendly
population. However, there are
various obstacles which
hinder the country to take
the action such as instable
economy and political divide.
It can be stated that undoubtedly,
financing in knowledge leads to
human development. However,
there are some factors which
hinder investment in it can be
tackled by pragmatic measures
to be taken.
