Are internal threats more dangerous  
for Pakistan or external?

### 1. Introduction:

Thesis statements: Internal political, social and economic threats pose more dangerous for Pakistan as compared to external threats.

### 2- Internal threats are more dangerous for Pakistan:

- I. ~~political instability causing polarization among masses.~~
- II. ~~corrupt practices leading to stagnant economic growth.~~
- III. Imbalanced distribution of resources producing ethnic hatred.
- IV. ~~Increased militancy due to under-developed areas.~~
- V. Extremist activities causing fear in public.
- VI. Under-developed social conditions providing a space for extremists.

3. External threats : more dangerous for Pakistan and Rebuttal :

I. Transboundary terrorism : a major security threat for Pakistan

Rebuttal : Terrorism re flourishing because of inconsistent internal policies.

II. Increasing extremism in neighboring countries

Rebuttal : Ethnic extremism inside Pakistan is a direct threat than outside indirect threat.

III. Threat of digital colonialism with increasing use of technology.

Rebuttal : Foreign outside influence succeed when people lack education

IV. Dependence on international financial institutions leading to dictated policies

Rebuttal : poor economic policies inside country are responsible for dependence

it is not essential to write rebuttal in every outline

V. Deteriorating peace in world because of wars having repercussions in Pakistan

Rebuttal : Repercussions results from overdependence on imports for energy requirements.

4- Conclusion:
