

Topic: Boredom and Excitement

Indent the paragraph.

Boredom as a human behavior factor, has been underestimated. In Past, it was considered ~~as~~ a great motive power than present. Animals in prison ^{feel} ~~feels~~ restless and bored. but in natural environment, they ~~get~~ ^{are} busy in focusing enemies, food and different activation activities that are even they do not ^{want} ~~wants~~ to do, let ~~not~~ them ~~get~~ bored. It is possible apes may also resemble ^{to} ~~humans~~. Difference between present and imaginary circumstances also a significant element of boredom: ~~as~~ Some ^{unpleasant} events like to ~~strugle~~ struggle to save one's life ~~from~~ ^{delivered} enemies can may not be boring. Similarly, ~~maidan~~ maiden speech in House of ^{Lords} ~~Lord~~ does not let bore to someone. The contrasting word excitement is more suitable for boredom than pleasure.

Do not include examples in precis. Just write their essence. Subject verb disagreement found.
