

Threats of global warming and ways to Counter it.

- 1 Introduction
- 2 Threats of global warming
 - (a) Scarcity of Fresh water
 - (b) Agricultural loss
 - (c) Food insecurity
 - (d) Economic decline
 - (e) Flood risks
 - (f) Extreme weather pattern.
 - (g) Rise in Temperature
 - (h) Disease/ health issues
 - (i) Glacier melting

well organized and quite relevant

~~Effects~~
(j) Decline in ~~labour hours~~

(k) Rise in ~~Sea~~ level

(l) Loss of ~~P~~ biodiversity

(m) Human migration

-3 ways to Counter Global warming.

(a) Climate friendly policies.

(b) Controlling emission of Carbon.

(c) Reforestation

(d) Sustainable Transportation.

(e) Improve waste management

(f) Encourage green agriculture

(g) Public awareness and education.

(h) International agreements to protect environment

4 Conclusion
