Paragraph Writing

Men feminism demand equal right and against the patriarical norms of society. Men are suppressed in society and responsible for every act in everyday life. But Men feminism raise the voice against set trends of traditional culture. And address the issue of men regarding men sexual harassment. They demand the freedom from toxic men masculinity and equal right. Men Feminism support and fulfill the condition of Liberal feminism. In Liberal Feminism, they demand reforms in society. They demand equal right, education, law and equal opportunities. Radical feminism address the root cause of women oppression is patriarchy. In patriarchal society man hold the power, and they believe only reforms are not enough society must change the root cause to end the women/gender oppression. But the Marxist and socialist Feminism believe the reason of women oppression is patriarchy and capitalism. Women exploit at work place by the get of low wages and harassment and exploit at home unpaid work & face the reproductive issue.

Artificial Intelligence has rapidly moved from scientific labortries to human life. It is including every part of life. Students are using AI in study, doctors are using in medical and so on. But with the positive aspects it is affecting on creativity. The main difference between human and AI is

creativity. AI is working on Algorithm that is setup by human. It is not generating new ideas as human can do it. But due to over dependence on AI human creativity is damaging. Human is lazy by nature. when every solution is avalible on one click not creativity is shrinking. People not try to find the solution through brain storming. And problem solving skill is reducing in industries. AI can help us in work but it can not take the place of human orignal thinking. Some part of society is misuse, the cases of deepfakes and cyber security is increasing, and they using creativity in wrong way. The over useage of AI affecting on menta health. If converge the whole debate, Artificial intelligence reducing the creativity of human, because its providing the fast and easy solutions. The analytical Reasoning and diversity of human thinking are affecting, and orignality of new ideas is suppressing. we need the balance usage of A
