

Brains, like hearts, go where they are appreciated

## Outline

1. Introduction
2. Deciphering the Topic
3. Where Brains and Hearts Find Recognition :
  - 3.1) People perform their best and feel emotionally fulfilled when their talents and efforts are appreciated

Case : Gallop Survey shows employees who feel valued are 45% less likely to quit.

- 3.2) When family appreciates a child's efforts, both intellect and emotions flourish.

Example : Parents encouraging a child's artistic skills helps their brain develop creativity.

- 3.3) Societal recognition encourages participation and contribution.

Example : Volunteers who are publicly appreciated continue to serve enthusiastically.

3.4) Nations that honor talent and effort inspire citizens to excel.

**Example:** Pakistan's Pride of Performance award encourages intellectual and artistic achievements.

3.5) Recognition at the global level motivates innovation and collaboration.

**Example:** Noble Prize winners inspire scientists and writers worldwide.

3.6) Students perform better where their efforts are appreciated.

**Example:** 'Student of the Month' programs improve academic engagement and emotional satisfaction.

3.7) Artists and writers flourish when their creativity is valued.

**Example:** Rabindranath Tagore's international acclaim encouraged him to continue writing.

#### 4. When Brains and Hearts Are Overlooked :

4.1) Brain tease motivation and heart feel demoralized when not appreciated.

Lack of recognition decreases motivation and self-confidence.

fo

H

**Example :** As per World Economic

Forum, many trained female doctors

leave the workforce due to lack of

recognition and societal support.

**4.2) Societal neglect reduces participation and contribution.**

**Example :** Skilled Despite large numbers

of female medical graduates, few

actively practice, creating gaps in healthcare

system.

**4.3) Neglected talent may migrate, resulting in brain drain.**

**Example :** Scientists and professionals

from developing countries migrate to foreign

states.

**4.4) When effort is overlooked, growth stagnates within institutions.**

**Example :** Students whose academic

work is consistently ignored stop aiming

for higher studies.

**5. However, When Brain and Heart Persist without Recognition :**

**5.1) Some believe that true talent**

and emotional strength can persist through

self-motivation  vs.           
 appreciation 

it is very good point  
plz exemplify it also

6. While self-motivation helps brains  
and heart achieve their fullest  
when effort and emotions are  
appreciated.

7. Conclusion
