## Green Space : A Source of Diverse Recreation.

In cities, green spaces and parks provide an atmosphere of serene and peace from the chaos of life. Besides preserving the environment, these places also strengthen community development. ~~As~~ these spots enrich pluralism and mental health by encouraging interaction among various cultures and school of thoughts. However, it is necessary to maintain a balance between the nature and urbanization which would be helpful for both living beings and environment. Therefore, every individual has to play ~~his~~ role in ~~maintaining~~ balance between development and stability of environment.
