

Monte: The Realist Writer

Monte was the victim of social hypocrisy. He remained confident and not got affected by criticism and legal battles which he fought for proving morality of his writings. He explored different aspects of life like: He also wrote on sex but also explained difficult life of common people. He considered that humans are not perfect and they are hypocrites in nature. He explored difference between appearance and reality in his writings and he treated vulgarity differently and he got success by his enthusiastic nature.
