EXERCISE 1

We are living in an era of mighty transformation in all aspects of life. This increased tempo of change giving our age a revolutionary character is a striking one. In India we have to follow up political freedom by social, cultural and economic advance for which our universities have to send out for every walk of life intellectually competent and professionally skilled young men and women who have imbibed through their learning the real democratic spirit and breadth of vision for the release of creative forces, learnt toleration and mutual give and take and through constant self introspection, self restraint, and disciplined habits of mind can overcome narrow prejudices. Thus greater emphasis has to be laid on the building of the character of the students, moulding their personality and producing good and honest men and women who believe in self help and self-reliance. Title: Universities as a agent of change

for building young character

Our age can really be called a revolutionary
age. India, after independence has to strides in
social, economical and educational field. These
strides can only be possible by building a
young character. Universities should focus and
care in character building and resilience
of students.
