

A recreational & culture visit to Cherokee.

I faced difficulty in planning a trip last year, I wanted ~~an~~ ~~a~~ some fascinating landscapes free from tourists. I accepted a suggestion from John to Oklahoma's county Cherokee.

We departed for Cherokee & visited a paradised scenery town Qualla Boundary, famous for tribal crafts & Hills presenting Cherokee's past. Souvenir shops were filled with historial & traditional artworks. We came across a ~~native~~ George, native and chatted much at a coffee shop. He works dawn to dusk during tour season and preferred it over woodcutting. During off-season, tribe find other source of income including woodcutting & Bingo games. Games like Bingo weekends bring great revenue, where Super Jackpot & Warrier Game are famous. We visited a museum lastly, witnessing artworks and symbols of Cherokee's cosmology. I missed the place after returning and would plan to next destination trip.
