Why I want to be a CSP Officer?

Civil Services is a very unique type of service in Pakistan. I want to be a CSP Officer because it is a way for my independent life. I don't like to sit at home always. So, I decided to be a civil servant. And other major reason is that my Father has a dream that I be an officer so in other sense I am also making my best efforts to fulfil my father's dream. No doubt there are many other reasons also but two major reasons is which I have discussed at the very first lines of my answer sheet.
