- (i) Technology is the bedrock of economic development
- (ii) Promote Innovation and adaptation
 - (a) United state: Silicon valley
hub of Innovation

E. promote health care sector

- (i) Education Innovate health sector
 - (a) stethoscope
 - (b) Operation through advance equipment: laser

F. Education boost agriculture sector

- (i) Introduction of water resistant crops
- (ii) Research in agriculture sector to overcome agricultural diseases.

G. Conclusion

"Are those equal, those who know and those do not know? (No they will never be)" (az-Zumar 39:9)

Knowledge is a greatest driving force that promote individual growth and development. Allah has created human beings and he has bestowed enormous blessings like, water, Earth, mountains and various types of foods. However, the first revelation of Allah by prophet Muhammad (SAW), not about to pray, alms giving, Hajj and fast, but it was "to read". Furthermore, knowledge is the power that illuminate individual life as well as collective life. It gives a straight path to success and wellbeing, avoid evils. This essay manifest the universal and multidimensional effects of education both on individual and society.
