## The Essay

We are the first generation to feel the effects of climate change and the last that can do something about it.  
(Barack Obama).

What happens when a country faces floods, droughts and heatwaves all in the same year? Pakistan is living in this reality. Climate change is not a distant threat for Pakistan, it is all happening ~~in front of~~ <sup>before</sup> our eyes. In 2022, Pakistan faced deadliest floods, displacing millions. Pakistan is facing this problem due to its geographical location, seasonal variations and mainly due to human causes. Many consequences ~~has been~~ <sup>Structurally not correct</sup> Pakistan has been facing due to climate change such as environmental consequences, industrial and social consequences. Pakistan is among top 10 countries which are facing climate change badly. Without solving this problem it would be difficult for Pakistan to be prosperous and to achieve its desired goals.
