"Education is the most powerful weapon we can use to change the world." nelson mandela

Education makes life worth living. A country without a proper system of education can't compete with the modern world. We should do our best to make it better for nation's progress. Education is irrespective of caste, creed or gender.

It brings reforms to political social and economic life.

According to article 25-A of the constitution of Pakistan obligates the state to provide free and compulsory quality education to the children of the age group 5 to 16 years.

Pakistan's education system is divided into five levels. Primary Middle, Secondary, higher secondary and Tertiary etc.
