PAPER-II	
(SECTION-A)	
QUESTION: 02	
The IMF and WTO play	
significant role in regulating global financial	
regimes. Evaluate the impact of IMF	
regimes. Evaluate the tripace of the	
and wto policies on the economics of the	•
developing nations. How do these organizations	
contribute to both globalization and the perpetuation of economic inequalities.	
 perpetuation of economic inegrualities.	
INTRODUCTION	
The international Monetry	
fund and World Trade organizations are	
important Linnancial institutes emerged from)
The Bretton Wood System in 20th century.	
However, in the emerging new world,	
These play an important role in the	
finnancing of different countries. These not	
only give assistance to developed nations,	
but also to the developing nations. Through	
The finances, These contribute in providance	
of proper finnances along with conditions	
to developing nations, That help Them in

Day (MINWING)

WRENCY DUE TO IMF LOAMS.

As The IMF loan is given in USA dollar (\$), That increases hegomony of Their currency. Due to which, local currency devalues, and did not meet with international demands. As Possistani Rupee devalues in relevance to dollar.

1 Dollar = 278 Pakisland Rupee.

.) WTO - A SOURCE OF EXPLOITATION

OF LOCAL INDUSTRIES

WTO is a source of exploitation of the local industries. As, it give rise to larger industries and reglect the local that damages to economy of a country.

·) MORE FAVOUR OF WTO TO DEVELOPED NATIONS:

MTO largely favour the developed nations as compared to the developing nations. As, it has more concern towards United States of America and EUROPEAN UNITOXI (EU)
Countries.
