(3,

paveing assured the fire is not a solution to any problem. Despite a Stream of strong words by the various leaders of the world mederal hatered still exist among the countries in the global Wilage. There is a complex web of various factors that are contributing to make poles apart from one another ucluding negative promption about certain Communitie Ha internet, restrictions on each other spect for Commercial flights and visa restriction to seak assistance on the healthcare sector. Moreguer, traff tarriff on trade, projudice to each other culture and multual conflicts are further exacerbating the issues of mutual repulsion. In the lorde to promote mujual co-existence, tolurence and (ouposahops: the are celtain shelegies including Strong check and balance in the use of special media to respect certain communities, allow at space to use for Commercial flights and avoid restrictions on visa for patients. Moreover, prutual cooperation in education sector via the induction of scholarships, Conflict resolution through mutual consultations

and to avoid trade was to premote liberal trade.
All of these strategies will possepte mutual
conexistence, cooperation and tolaration in this
global world.

The concept of global world advanced with incression of modern technologies in the various fields of life. It brings close the poles of the world together in the form of people to people contact via mødern means of transported Communication and rehabilitation. Moreovers, plz substantiate your ideas with proper example Council of the world A more data of police climate Charge and the threat of terrorism found in one country created visks for all. So, the world is today a global village and all the Countries and its people are connected in one way or another. The actions of one react on the other part of the wooded is common.

mortial of all

To sum up it can be deduced that
the world is a global village in the sist centery.

It is the need of the hour to live together by adopting a complex web of factors including mutual conflict resolutions, eliminating common threats such as; polio, tarrorism and climate change. Moreover,

create easiness for liberal trade, people to people conflict in general and for patient in specific. Moreoner altowing to use each other assepace for communical plights and pertinent legislations at international legislations at international legislations at international legislations at international
