

A recreational & culture visit to Cherokee.

I faced difficulty in planning a trip last year. I wanted ~~an~~ some fascinating landscapes free from tourists. I accepted a suggestion from John to Oklahoma's county Cherokee. We departed for Cherokee & visited a paradised scenery town Qualla Boundary, famous for tribal crafts & Hills presenting Cherokee's past. Souvenir shops were filled with historiral & traditional artworks. We came across a native George, native and chatted much at a coffee shop. He works dawn to dusk during tour season and preferred it over woodcutting. During off-season, tribe find other source of income including wood cutting & Bingo games. Games like bingo weekends bring great revenue, where Super Jackpot & Warrier Game are famous. We visited a museum lastly, witnessing artworks and symbols of Cherokee's cosmology. I missed the place after returning and would plan to next destination trip.

there are some basic ethics of writing an assignment read all of those and submit in proper presentation with use of marker and write word count dont address yourself that i and we, write the author wanted to visit etc use of symbols is not allowed in precis @\$% like these seems like you haven't attended classes of precis nor have read any basic precis rules

resubmit 0/20
