IT has been the lot of the unfortunate aborigines of America, in the early periods Of colonization, to be doubly wronged by the white men: they have been dispossessed of their hereditary possessions by mercenary and frequently wanton warfare, and their characters have been traduced by bigoted and interested writers. The colonist often treated them like beasts of the forest, and the author has endeavored to justify him in his outrages. The former found it easier to exterminate me than to civilize, the latter to vilify than to discriminate. The appellations of savage and pagan were deemed sufficient to sanction the hostilities of both; and thus the poor wanderers of the forest were persecuted and defamed, not because they were guilty, but because they were ignorant.
