

An investment in children  
pays the best interest.

## Outline

### 1 Introduction

#### Thesis statement

An investment in children  
is the best strategy which  
plays the important role  
in a country.

### 2 The opportunities of an investment in children.

a Government should protect  
the children rights ~~particular~~ <sup>specially</sup>  
security.

b Government should provide Education  
to children.

c To provide ~~an~~ healthy food to  
children and pregnant women.

d Train or aware mother about  
children growing.

e Government should take initiative  
to prevent child labour.

f Society should motivate children  
in difficult task.

g Awareness of control birth.

3 The benefits of an investment in children.

a Peace will be ensured in a country.

b The best politician will be raised in a country.

c Entrepreneurship and country economic <sup>will be</sup> growth.

d Technologic and innovation sector will be grown.

e A country ties will be good with another country.

f Remittance will be increased in home country.

g Government and private employees will be playing inclusive role in country.

Conclusion

An investment on Public they will give many times ~~more~~ returns. If a government invests any project such as mineral sector, it will give benefits just 10 years. If a government invests in young people such as their health, education and other related sector, a country will grow in world. It is today those countries rule who spending their resource in youth development such as China, the United States of America and the United Kingdom. If a country focuses on research and development, health sector, security and inclusive economic policy, it will have more benefits such as peace will be maintained, the best politician will be raised, technology will be developed and economic boom will be in country. It also includes remittances will be increased in home country and

Government and Private employees will be playing inclusive role in country. Hence, an investment in children is the best ~~option~~ <sup>decision</sup> because this is the long-term approach. ~~and~~ It is also beneficial.

Government should protect security of children. Children is source of a country. when children secure in his country, they will play important role in future. Children rights are concerning issue especially in developing countries. Pakistan is a developing country there are also children unsecure. According to the United States department trafficking in Person report 2024 reveals a dire situation in Pakistan regarding human trafficking. It also Police disclosed that 40,500 girls had been abducted in Punjab alone during a court proceeding in Lahore (2022). Hence, the developing country should focus on protecting the children security rights.

Government should provide education to children. Education is important for a country's development. Government can invest in school development where children will be facilitated by latest technology. When they will grow, they can easily continue study in higher studies. Children education system is polluted especially in developing countries where child labour is main issue out of school. Pakistan is a developing country. There are many schools destroyed in 2022 flood. According to the 2023 population census, 25.3 million children are out of school. The main reason out of school is child labour. According to the child labour survey 2022-2023, 19,000 children are working in agriculture and factory in Khyber Pakhtunkhwa (KPK). Thus, government should focus on promoting education in the country while they compete or sustain in the world.

Healthy food is most important for human. This is importance for ~~afford~~ ~~when~~ children. When children eat healthy food, they can continue all work easily. Healthy ~~sector~~ <sup>food</sup> is ~~affected~~ <sup>expensive</sup> in developing countries where poor people can ~~not~~ not afford it. Pakistan is a developing country where healthy food is scarce. According to the 2024 Global hunger ~~index~~ index, Pakistan ranks 109<sup>th</sup> out of the 127 countries. There are multiple causes of food insecurity such as climate change and <sup>illiterate</sup> farmer. ~~Problems are~~ So, government should focus for providing healthy food to children while their body ~~developed~~ healthy.

New mother should be trained about children ~~grow~~ growing. Many time children is ill <sup>or death</sup> due to first experience. Mother plays an important role in child growth when mother ~~with~~ educate, she will better nourish her child. A child can become a good

citizen of a society. Mother should be aware about his child where he goes and where he plays. This is important for mother when she awares about his child then her son will not bad act in society. Those mothers who care their child, their child become a good citizen of society and those who do not care their child, their child become 'problem' in society.

Child labour is the main issue in developing countries. Government should improve education sector and inclusive economic policy. When government inclusive economic policy then every parents can easily afford their child education ~~and expenses~~ and other necessary expenses. Government should also <sup>announce</sup> scholarship ~~and~~ to poor people children where they grow in life. Child labour is the ~~main~~ problem in Pakistan.

because there is high inflation rate (37% in 2023) people can not afford their necessary items. Therefore, child labour force high in Pakistan. According to the Child Labour Survey 2022-23 19,000 child labour are working in Khyber Pakhtunkhwa (KPK) in agriculture and factories.

Thus, government <sup>should</sup> focus on human development while the child become a great person in life.

Society can also creative role in child development. when ~~the~~ child is 5 year old, ~~he~~ starts go to school where he meets with friends classfellows.

and he also interacts with his neighbour. There are some responsibilities of his neighbour and his classfellows

when he ~~is~~ in difficult situation. Everyone <sup>should</sup> co-operate with him in difficult situation.

Many cases happen, when a child <sup>suicide</sup> attempt ~~there~~ there are many reasons such as ~~which one is~~

overburdon of study, conflict in home and there are many reasons. So, society responsibility is that

When a child or person is in difficult situation then you should help in hard time.

There are many ways by which ~~we~~ child can be uplift in society. When child is less than parents can easily fulfill their expenses; same as when child population high in a country then government can not give best education, ~~and~~ healthy food and health facility. ~~when~~ in developed country there are new birth child rate is low than developing countries. It results they better provide education, health and food to their child. Developing countries should also focus on low birth rate while they better invest in a few children and it results developing country will prosper in future.

Many individual <sup>collective</sup> make a society.  
When your individual is good then  
society will also be good. When  
a child is born then mother  
and father responsible start  
to upbring their child. If  
parents fulfil his responsibility  
then children <sup>role</sup> will be good <sup>in society</sup>  
<sup>and</sup> beneficial. ~~With~~ other people. Government  
~~and~~ ~~other~~ in will not face law  
and order situation. Peace environment  
will be established in the whole  
country. Canada is the example  
of peace country. where government  
support parents for child. ~~It~~  
results there environment is  
very peaceful. otherwise, see it  
in developing countries there ~~are~~  
everytime protest started. So,  
when you invest in children  
then it results your environment  
will be peaceful.

Due to investment in children,  
and give opportunity in life. They  
~~become~~ <sup>play</sup> good role in society. when  
you educate child, they become  
a good politician. in future. When  
Government gives opportunity to

Student for Student union  
in University, when these child  
become adult and they start  
to go to school. They ~~can~~ take part  
in Student union where they  
can become a good politician.  
So, to give opportunities to  
child who can become  
a member of society.

When you invest in  
children, they become  
grow in life and they  
can start their business,  
which result job opportunity  
create in country. People  
living standard <sup>will be</sup> improved.  
Government will can collect  
more taxes and re-invest  
for people. Developed countries  
are further flourish because  
they invest at right place.  
Developing countries construct  
roads and metros but not  
develop <sup>inclusive</sup> education and health  
sector, which is key role  
in country development. So,  
those country focus in their  
child the country is prosper  
in other countries.

when government <sup>invests</sup> in children then innovation sector will be booming. Innovation is important for country development. Developed country is developed due to innovation because they invest in public and focus, research and development. Now, China is developing new method of production which is very cheap or affordable. The (USA) United States of America invented renewable rocket by which they launch satellite and again use in future. These all things happen due to investment in his youth. These two countries ruling the world. So, an investment in youth is the best option because this advantages are ~~greater~~ <sup>long</sup> time. Country is developed in technological way.

~~when~~ A country youth is educated and they travel in abroad countries, where they does different jobs than their some countries will be famous because country's citizen are <sup>informant</sup> diplomat.

when they visit outside country  
there they known as a  
country representative. if you  
wrong acts, ~~then~~ your country  
will be bad and vice versa.

<sup>name</sup> Pakistan and Gulf countries  
were culturally when ~~the~~ the  
former Prime minister opened doors  
Gulf countries in 1970s.  
Many Pakistani went to the  
United Arab Emirat and Saudi  
Arabiya for working, Pakistani  
were recognized as a hard worker  
in Dubai and other <sup>Gulf</sup> countries.  
But now some Pakistani  
bad act in the UAE and  
Saudi Arabia, it result visa  
rejection high due to  
his activities. So, when your  
citizen is educated then  
you relation will be strong  
with other countries.

when youth is educated  
and high skilled then  
remittances will be high  
amount.

When youth is educated and high skilled they can work in developed countries and sent remittance to their home countries. Skilled workers send more remittances their countries than ~~who are~~ non-skilled worker. Many Pakistani works in abroad countries according to Pakistan government data 1.14 crore Pakistan are living in abroad and send remittance ~~to~~ home country.

In 2023-2024, Pakistan received <sup>remittances</sup> over \$30 bn. Hence, investment in youth, they give benefits in the form of remittances to his country.

When government invested in children then they <sup>will</sup> ~~be~~ <sup>play</sup> ~~an~~ inclusive role in government and private job. Government runs by citizen who qualify the exam. They become officer and run the country. Same as private business also run by human. When human resource is ~~are~~ educated

and skillful they play important  
in their job. China is now world  
leading country. Before 1970s,  
they were poor, but ~~China~~ <sup>China government</sup>  
invested in his youth and make  
inclusive economic policy. now,  
China is the world second  
largest economy by GDP (Gross  
domestic Product). Hence, an investment  
in his youth is the good option  
because they play structural  
role in country development.

At the concluding, an  
investment in children is  
the best <sup>long term</sup> strategy. It has  
long term benefits. A country  
has many opportunities for  
investment in his children.  
Government can invest in his  
education, health and opens  
other opportunities for his beterment.  
It also includes society play  
his role such as support weak  
children. Awareness Program  
~~to~~ new mother for his child  
upbringing and awareness  
of control birth rate. Government  
also provide security for children.

An investment in children has many benefits such as innovation sector improved, economic growth and many other. So, when ~~society~~ and government invest in their children the country will be prosperous like as other developed countries.
