

2023QNo-7- Translation:

The old man said that there is a mountain across the forest where the flower grows whose fragrance restores the lost light of eyes.

Many people came and left to get their hands on that flower but no one reached that flower.

Perhaps, that is why there is pain and suffering in the world and man is searching for light.

2024QNo-7 Translation

When the asymmetric conflict of Palestine came before the United Nations for resolution, the global representative organization, acknowledging the right to self-determination of Palestinians, proposed a formula to resolve these issues. A two-state solution to the Palestine issue was proposed, but the UN resolutions passed for it have not been implemented for the last seven decades. Contrarily, the Israeli forces, on the decree

of the United States, are indulged in the bloodshed of unarmed and innocent Palestinians till today; and the Gaza Strip has been completely destroyed in the ongoing war for the past two and a half months. In this war, Israeli forces, with American aid, have brutally martyred more than twenty thousand Palestinians including women and children. There is no place left for the survivors, who are losing their lives because of scarcity of food and medicine.
