Importance of Education for Children

There are three school of thoughts in education. One of those who are agree on freedom of education; other on authority and third one who say freedom but they remain good. So, many prefer ~~third~~ last one because child cannot good in freedom. Therefore, liberty in the model of Rousseau's is mon on study of animals and babies. As, education has no positive impact and prefer spontaneous environment. However author is not agreeing and prefer education instead of liberty. Similarly, communities requires co-operation rather than spontaneous action. Furthermore, large population survival possible due to education. Educators having good intellectual abilities cannot develop without check and accurate method. Moreover,

education has positive social
impact on ^{entire} growth of children.
