Title: Adverse relationship between England and Muslim after Seventeenth Century

Throughout the seventeenth century, England had a good relationship with Islam. However, both of the religion have distinct religious values and traditions but strong military and commercial impacts of Islam on British culture.

After seventeenth century, the cordial relationship between Islam and Britishers, transformed into religious adversity and intolerance, due to the victory of centrifugal forces.

At the last of seventeenth century, England create harmony with other religion, particularly, Jews, Catholics and Eastern Christians and who were allowed to established their religious institution and openly followed their religious sentiments. However, Muslim set aside also in this movement.
