

Climate change is dangerous for human being because
rising of temperature in whole world. All
industries are using more fossile fuels and
be carbon emission increase. Every place
are being deforslation and their place
build construction. every ~~control~~ is country
~~control~~ should control carbon emission
and doing more plantation. Industrial
Sector must be convert into renewable energy.
Every vehicle must be renewable energy or
electrical energy. Recently COP 29 in
Azerbaijan all countries were discuss on
environmental issue

Write in formal words plz
