

Expansionist nationalism: a looming challenge for globalization

Outline

Introduction:

Expansionist nationalism is a looming challenge for globalization:

i) Dehumanizing others fuel xenophobia, racism and discrimination against immigrants and minorities.

Do not and again and again in your writings

ii) Suppressing cultural diversity through the promotion of a narrow, homogenous national identity.

iii) Controlling technology development and access, limiting the free flow of ideas and information.

Divide it into two parts

iv) Impacting the global supply chain through the exploitation of country's resource

v) Hindering global cooperation in addressing global issues by prioritizing national interest

- vi) Strict visa policies affect cross-border educational and employment opportunities.
- vii) Hindering the international trade by prioritizing domestic industries and imposing protectionist measures.
- viii) Impacting the global governance by undermining international cooperation and institutions.
- ix) Significant violation of international law by intervening in a sovereign state and interfering in internal matters.

x) Impacting market to market interaction; fostering an environment of competition rather than cooperation.

Mitigation of challenges posed by expansionist nationalism:

- i) Addressing the underlying economic and social factors that fuel expansionist nationalism.
