ENVIROMENTAL SCIENCE

Discuss the important components of Paleistan's
National Climate Change, policy / What is the
impail of 18th amendment on climate change
policy Jormulation in Paleistan ? How can
Paleislan take benedit from COP28 ?
The state of the s
Introduction:
Historical many acts and institutions are
dosmulated to resolve the climate change issues
in Palistan, particularly between the period of
1983 do 2007. Adder 18th amendment the
subject, of environment is dilited do provincedes
and National climale change policy was adapted
Mal includes various sectoral stralegees. Moreoner,
as world is getting more concern regarding
climate issues that one discussed and adopted
im COP-28. Paleis dan Take hemedit from COP-28
through, dechnological cooperation, meet binancial vunerabilities, and use the platform to lead
emisomental diplomacy.

Historical background of environmental govern-
ance in Paleistan:
To overcome the climate issues the best
ordinance was enacted in 1983 named as

Poliston Environmental Protection Ordinance". The
supreme body was established to govern the
envisoment selated matters momed as "Palcistan
environnental protection Council". Loter it was
replaced with "Poliston Environment Protection Act"
1997. The main idea of PEPA is to emponce
the regulation through punishment, inspections and
environmental tribunals are séluped to penalize
violators.
The state of the s
Role of 10th amendment in Josmulation
of envisomental policy:
Before 18th amendment most of the acts
or ordinances are centralized in malure and
provinces have minimum role. However, after 18th
amendment emisament became the subject of
progimes.
i) Institutional restructurization:
The ministry of envisoment was abolished
and Ministry of Climate change was created to
provide guideline de provincial institution in derms
of policy moleing and ano ensures Paleiston's
compliance with Internation obligations.
