what are the political and admini-strative implications of Eighteenth Amendment to the 1973 constitution. 01. INTRODUCTION The 18th amendment to the Constitution of Pakistan, enacted on April 9,2010 is regarded as one of the most transformative legal and political reporms in the contry's history. It emerged as one tration of power in the hands of the executive, a legally of military regimes, and sought to restore the parliamentary character of the Constitution. By repealing the controversial 17th Amendment and revising over 100 provisions of the Constitution, the Eighteenth amendment reale-rined the balance of power between the pederation and the provinces, paving the way for domor cratic consolidation and administrative decentralization. However, this significant reform also presented challenges, including capacity gaps, inter-government ntal alisputes, and coordination issues, which required careful management to ensure its success
