Labelling Theory, its
Effects on youth and
remedies
· March
I. Introduction
abeling theory's proposed
Decker and lement, is one of
the lie line therein in explaining the
Why some people, especially youth, become
Why some people, especially youth, become involved in criminal activities. It posits
that a negative label given to a
person com actually force a person to
conform to that label. Its effects on
youth include juvenile delinguancy inclusion
in gangs and lack of motivation
to improve oneself. Remedies such
as avoiding bad labels, promoting
critical thinking and awareness can
