VI Conclusion.

Increasing achievements in technology

Strength is now the name of Woman also because of their increasing achievements in technology. Technology is simply the application of scientific knowledge for practical purposes. It is ~~being~~ observed that, whoever elevates himself / herself in the field of technology - which can be person, company or country - ~~has~~ ^{has} strengthened their position during the time of faster growth and Woman are no more behind anyone - highlighting their strength. It becomes even more evident ~~by~~ ~~that~~ ~~at~~ ~~the~~ from the innovations done by Woman in technology that was never done ^{before} by anyone. For example, A 16 year old girl, from Kazach, stunned the public by creating World's first ^{ever} calculator in Sindhi language and that too in just three days with the help of artificial intelligence. She is not the only one but one of the women achieving greater heights in technology. Therefore ^{also} ~~is~~ ^{is} no more the name of woman due to increasing achievements in technology.

Weakness is no more the name of women because they ^{are} also playing leading role in Judiciary. Judiciary is one of the organ of state whose impartiality is important for the justice in society. It is observed that, Judiciary is most typical and highly pressurized organ of state; where one come across multiple problems - from interpretation of statutes to sustaining external pressures - which includes life threats. Women leading role in such a field highlights that woman is now the name of strength. It becomes even more visible from the role played by ~~important~~ ~~cases~~ women in important cases. For example, In recent review petition against the decision of reserved seats, Justice Ayesha ~~refused~~ Malik refused to be a part of bench to hear review petition despite ~~the~~ ~~immense~~ immense pressure of the military establishment in Pakistan; she ^{took} stands for public interest, impartiality and Justice on just grounds. Her act made the order of court defective which highlights the role she played. Therefore, Fairly is no more the name of women

Faculty Is ~~the~~ no more The Name of
Alomani.

I Introduction:

II Alomen are no more weaker:

Conclusion-

Thesis Statement:

Weakness
~~to be~~ is no more the name
of ~~weakness~~ ^{women} due to their
leading contribution globally. on the
contrary, it is believed that frailty
is still the name of women.
However, ~~weakness~~ ^{strength} is now the name
of ~~frailty~~ women.

Weakness
~~to be~~ is no more the name
of ~~weakness~~ ^{women} because of their
rising ~~of~~ role of literacy to their
active involvement in research
activities. on the contrary, it is
argued that frailty is still the name
of women. However, ~~to be~~ strength is
now the name of women.
