

"Pros and Cons of Social Media"

"Introduction"

Due to technological evolution, the trend of social media has been increased since 20th century. Furthermore, the best ~~tech-~~
~~logical~~ evolution of technology is a social, but it has pros and cons. Additionally, the social media is the fastest source of online knowledge and providing awareness regarding ongoing hot issues. In addition to this, due to social media people can raise their voices against the unjust within the society. The social media is not providing access to the people to raise their voices against unjust, but also the best source of learning, especially for the children. Most importantly, its ~~is~~ access is available 24 hours. On the flip side of the coin some skeptics are unaware of the facts that the social media is not authentic source of knowledge. Most importantly, it badly affects the people's eye sight and mental health as well. Additionally, due to social media people can be easily trapped in scams and frauds. It reduces physical activities as well. Furthermore, people can manipulate anyone's character easily. It's the ocean of fake news. Most importantly, it is the powerful for proxies (Digital terrorism). Lastly, due to social media, hackers can easily access the people's personal data. This essay

will highlight the pros and cons of the social media.

"Conclusion"

1 After considering ^{the} all circumstances, this essay concluded that the social media is the best innovation of the 21st century. The reason behind this, it is the best source of online knowledge, providing awareness regarding hot issues, and access to the people through which they can raise their voices ~~regarding~~ ~~to~~ against the unjust. Moreover, it is the best way of learning, especially for the children and its access is available 24 hours. On the other hand, it cons as well like not authentic source of knowledge and affect the people's eye sight and mental health as well. Due to social media, people can be easily trapped in fraud and scams. Most importantly, it reduces the physical activities. Furthermore, people can manipulate anyone's character and it is the powerful tool for proxies. Most importantly, it is the ocean of fake news. Lastly, hackers have the access of people's personal data as well.

The above-mentioned arguments show that the social media has the pros ~~and the~~ and cons.
