The impact of Social Media on society

Social media is not remaining a free time entertainment tool, but it also became a significant part of our daily lives. It can be used for multiple purpose, depends on user mindset and need. Social Media trends, videos, and newses, have the ability to change the perspective of people. It can be used to aware people and educate them on serious issues. It changes people thinking directions. To enhance and upgrade sales, one can use social media tools. Many business man and industries post adds or videos on social media platforms such as facebook, instagram and youtube to boost their sales. Social Media platforms such as Shopify, Daraz, Amazon, Ali Baba and Walmart can be used to start an online business. An individual can earn money by starting online business, while sitting at home. Social media is also became a teaching platform and it also helpful for students to write their assignments by using online platforms such as meta AI or ChatGPT. School, college and universities going students can easily understand their topics by watching youtube videos. However, it can also be used to take online classes by using apps like zoom. Social Media reduce the impact of distance between people all around the world. Now, people can connect and

talk with each other, while sitting in other countries or cities. It is also a tool of entertainment. Children can watch cartoons on it and can play video games on it. While, adult can watch series or netflix on it and can also scroll reels on it.

However, social media has also causes negative impacts on people. Using social media all the time is a wastage of time. Social media distracted people from their goals and makes them lazy. Excessive use of social media can lead to a health issues, such as bone pains and joint pains and can also led to the bad body posture. Children, who uses social media all the time, has a higher chance of eyesight issues in the future. Social Media also causes a ~~brain drain~~ in Social Media reduces the capability of creative thinking. Watching nudity on social media causes a moral decadency in people. Most of the people who watches nudity and wrong websites on social media, forget their moral, ethnic or ~~ex~~ cultural values. Social Media can be used to starts a propaganda against a specific political party or country. This propaganda can poses an aggressive behavior in the people and sometimes also makes them extremist, which can led to the death of innocent people and can also led to the division and ~~dis~~ destruction of

the country.
In conclusion, social media has both negative
and positive side, we must be careful
while watching or listening something on
it. And also don't ~~need~~ ^{need to} trust one each
and everything which social media show
to us.
