Every era ^{brings} some type of matters, which no one likes, but they must be agree with that. ^S Sometimes it is also happends because maybe nature put somethings in front of us just to examine us. Either it is useless for us as we have no relationship with that, but we ^{we have to make it} make it be a part of our life. This is also happening today. Similarly, every century is ^{brings} bringing some type of changes, which is ^{are absolutely} absolutely new from the previous century. Moreover, the development of arts and natural science have give more things, which ^{termed as} can be recognize waste for academic and economic process. In addition, nature gives us reward, and at the same time make that mandatory for us. Similarly, also said that to trash the skin of that, and if you do not remove that it will increase the fifth of environment.
