

Q. no # 2

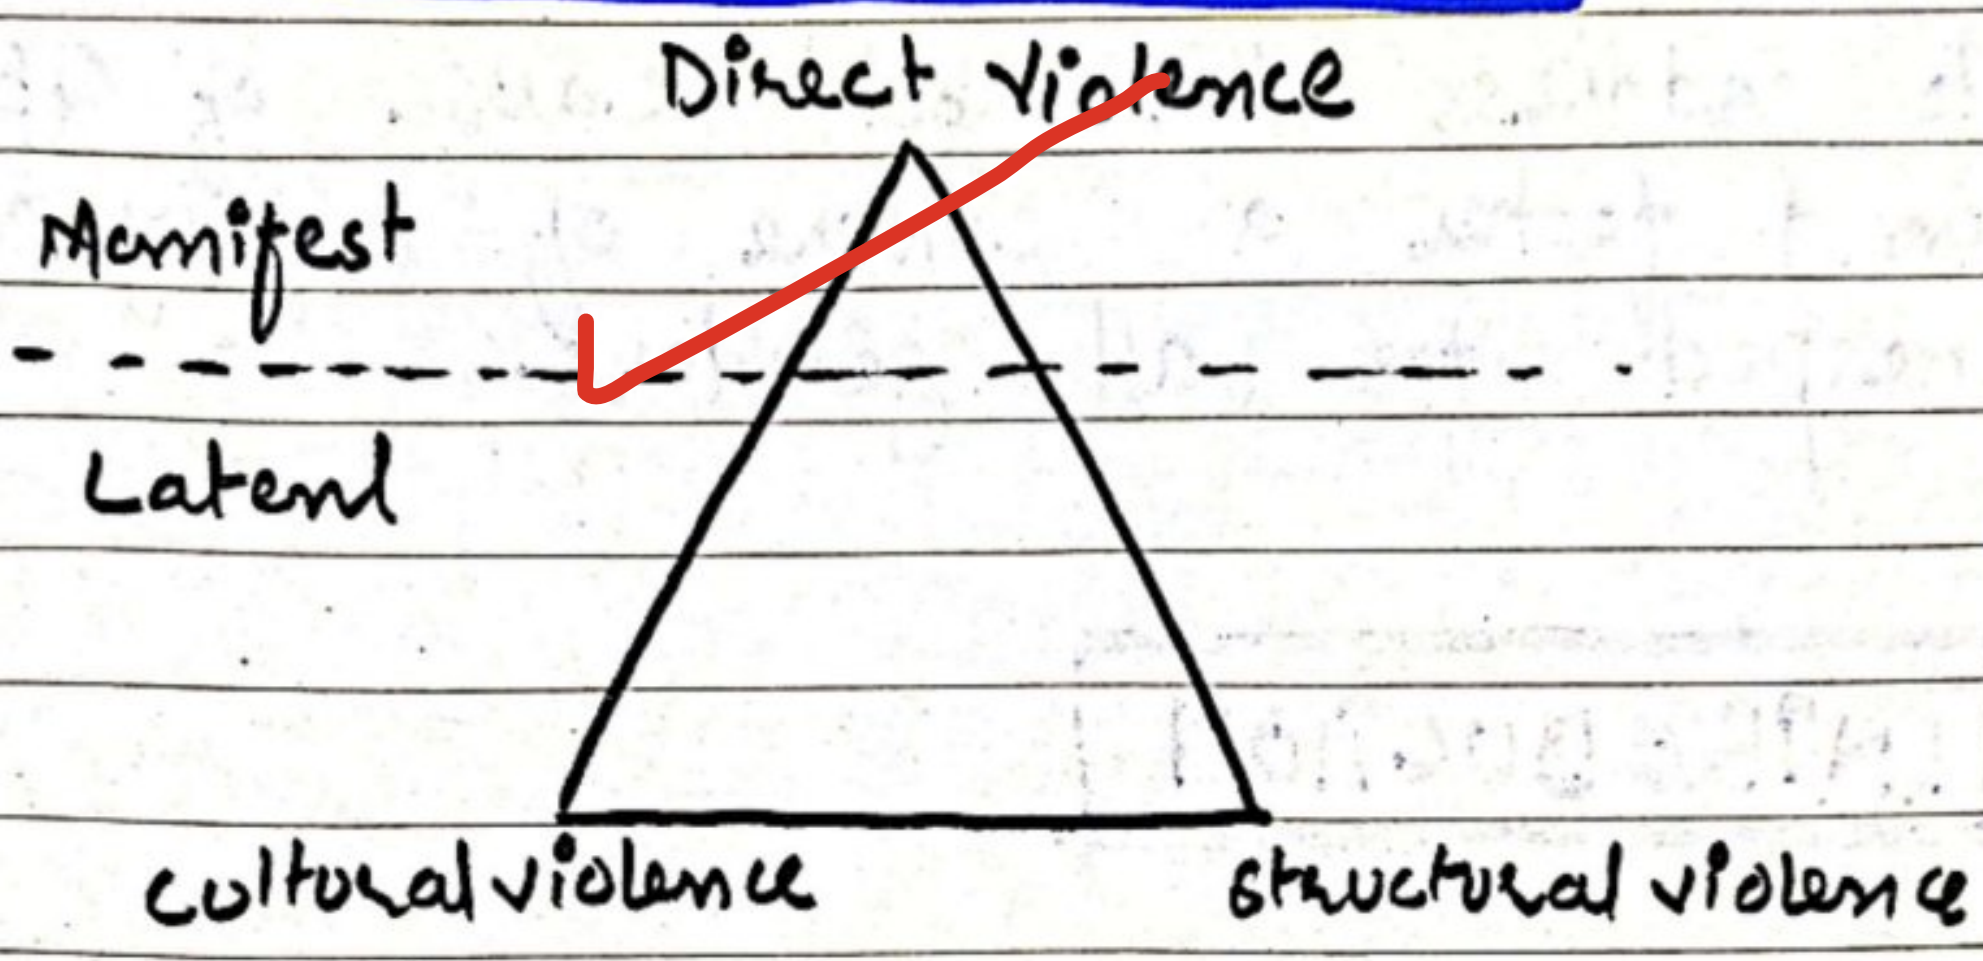

Despite Legal Frameworks (GBV) remain pervasive in Pakistan. Beyond legal reform, what socio-cultural and systemic changes are necessary to address the root cause of GBV and foster a culture of safety and respect for all genders.

INTRODUCTION

An action which delivers harm physically or mentally, either it has long consequences or short is considered as a violence. Pakistani women's are suffering from both direct and indirect violence inspite of several policies. Pakistan has enacted Anti Harassment Act in 2010 to counter this evil but it still prevailing. Socio-cultural and systematic changes are needed to counter the all type of violence i.e. Protection, Prevention, Socialistic approach to get rid of violence.

Gender-based Violence

Galtung's Triangle

Direct Violence

- Physical Violence
- Acid Attacks
- Harassment
- Rape
- 2 Finger Test

Indirect Violence

Economic disparity is a violence in which male dominate female by not providing the basic amount required for living life.

(6)

Political Exploitation and cyber Attacks.

Political Exploitation and cyber Attacks are prevailing form of violence where by male traits try to hack the women's privacy and try to get access of their personal information. whereas political exploit by inadequate policy formulation for women.

no need to discuss this part of the answer in detail.

Socio-Cultural Changes Required

→ Provision

→ Persecution

→ Prevention

→ Protection

Systematic Changes Required

→ Criticism on Patriarchy

→ Socialist Feminist Approach

→ Marxist Feminism

→ Equality Seeking

Socio-cultural changes and systematic changes necessary to address GBV and foster culture of safety and respect all genders

Below mentioned are the socio-cultural changes and systematic necessities to address GBV.

(1)

Provision of legal rights and economic resources.

Provision of legal right is the fundamental factor necessary to end the gender-based violation and ensure gender respect. (19th Amendment of US)

(2)

Persecution of Laws through enforcing authority.

first add description of atleast 5 lines and then add references.

US Law of 1963: where Laws are already formulated their persecution will be significant step to counter gender-based violence.

(3)

Protection: Formation of NGOs to add concept of sisterhood.

Such institution are necessary to form which provide the concept of shelter to women.

(14)

By changing the social structure
Patriarchy.

Patriarchy plays a pivotal role in controlling the violence as per the Radical Feminist, patriarchy is the root cause of gender discrimination and women subordination - this needs to be eliminated.

(15)

Social Feminist Approach to counter systematic inequalities

According to the Social Feminist Capitalism is also playing its role where by women are misused.

Case study: 12 Million workers are home based worldwide, which are being exploited.

(16)

Equality seeking approach through and formal platform
Liberal Feminist

argue that ending the concept of glass ceiling at workplace would end the discrimination of women and resulted in the lack of enforcing violence by intimate partner.

add more arguments in this part.

CONCLUSION

To conclude it, violence which creates several stumbling blocks for women at every step can only be countered through tailored approach and imposing socio-cultural needs. Equality is fundamental rights of women as socialist feminist argue:

"Equal treatment of women is not a privilege; it's a necessity"
— Mary wollstonecraft

Q. No # 03

Compare and contrast the contributions and limitations of two distinct feminist theories (Liberal vs Marxist Feminism) in analyzing root causes of gender inequality. Which theoretical lens do you find most compelling for addressing contemporary challenges and why?

INTRODUCTORY REMARKS

There are multitudes of theories which explain the process through which contemporary challenges can be sorted out.

Among all Liberal plays a significant role which ensure the equality of right and equality of Law before all.

Additionally, Reproductive right and bodily autonomy is the significant case which explains the true image of ending discrimination at domestic level and at market level.

Juxtaposition between Liberal and Marxist Feminism

Liberal Feminism

→ Equality in Existing System

→ Education and Economic Equality

→ Bodily Autonomy

→ Political Participation

→ No Discrimination at work place

Marxist Feminism

→ Criticise the Existing System

→ Patriarchy is oppressive system

→ Emancipation is only solution

→ System Exploit Gender

→ Capitalism is Faulty

Compare and Contrast of Liberal and Marxist Feminism

Before proceeding, below mentioned are the arguments of Liberal Feminism.

(1)

Equality in existing system inspite of revolution.

Liberal Feminist demand of equal laws for male and female inspite of oppressive systems.

Case study: US grant suffrage right to women in 1920.

(2)

Seeking for Education and Economic Rights.

Argument of Liberal Feminism is for equal opportunity for education and equal pay act.

Case study: US end wage disparity in 1973.

(3)

Body Autonomy and Reproductive Rights

Case study: Roe vs Wade case of US court is highly influenced by liberal feminism. They demand access for abortion.

Following are the argument of Marxist Feminism who want to get emancipation for capitalism.

(1)

Criticise the existing system of patriarchy.

Marxist Feminist argue that Patriarchy and Capitalism are mutually influencing male dominant society. End of Capitalism is the solution to end the subjugation of women.

(2)

Emancipation from prevailing system to ensure gender equality.

Argument of Marxist Feminist is to get emancipation from prevailing order.

Case study: 46% of agriculture labor is women, capitalism exploit them.

(3)

Capitalism subjugates the economic conditions of women.

Capitalism is a system which exploit the economically women by providing meager wages.

Case study: Bangladeshi Industry.

Liberal Feminism: Most Compelling
for addressing contemporary
challenges.

No Discrimination

Equal Laws
For Male
and Female

Reproduction Right-
and Bodily
Autonomy

Education and Economic
Equality at all level

Political Participation
without any
discrimination

Liberal Feminism most compelling to address contemporary challenge

Below mentioned are the arguments in favor of Liberal Feminism.

(1)

No discrimination at work place and Equal pay.

Case study: USA end the concept of wage disparities in 1973 by passing out the act.

Demand of Liberals is to end discrimination at work place and concept of glass ceiling.

(2)

Equality before Law for both gender.

Liberal Feminist argue for the same and just Laws as are of the man to ensure the equal treatment of women.

(3)

Reproduction Right and Bodily Autonomy.

Reproduction right and Bodily Autonomy is their stance and access to contraception and alternative for child birth.

(14)
Education and Economic opportunity for all.

Equality in Education and Economy plays a significant importance for the development of any state.

Case study: Iceland became the first country to provide equal economic opportunities to both gender.

(15)
Political participation to counter the gender against policies.

Political participation is the stance of Liberal Feminist to counter the gender against policies:

Case study: Rwanda championed 30% seats of women in parliament.

(16)
Peaceful struggle to counter the gender sensitive narrative

Liberal Feminist are not in the favor of revolution. They are peacefully struggling to counter the sensitive narrative and ensure women empowerment.

CONCLUDING REMARKS

Hence, several feminism provides the different mechanism to counter the contemporary challenges faced by women. However, liberal feminism provide solide mechanism to counter the prevailing challenges. As liberals argue: "Provision of rights to women is basic step of Human rights?"
— Treauden

Q. NO #2

Critically assess the impact of globalization on women's lives in Pakistan, distinguishing between its potential for empowerment and its role in perpetuating new forms of gender inequality and exploitation. What policies are necessary to mitigate negative effect and maximize positive ones?
