Drug Abuse is an
in alarming and rising issue
Drugs in young generation of Pakistan
chemicals contain hazardous
that effect
human body.

Drugs like cigarettes and
Cigars contain carcinogens
which cause cancer and
also reduced red blood
cells which carry oxygen
in blood.

Hallucinated alcohol, drugs
like hashish cause
increase in dopamine which
make brain so relaxing and
when brain become hallucinated
it rises expectations and
cause psychological disorder.

Excess usage of hallucinated
drugs cause many
diseases like heart
diseases, brain strokes and
mostly in men less product
of sperm which may
cause infertility in future.

The youth rate of Pakistan
is 64% and 90%.

organization matters alot
plz organize well

YOUTH is a key factor which contributes in making a state's prosperity. ~~engagement of youth is~~
unfortunately, in Pakistan such drug addiction, gambling, and their debility which is social disorder. ~~personality~~
By addiction become laziness and him not to rely on life corruption makes work hard
which makes him to rely on social crimes. Snatching, robbery etc
If a country is responsible of a citizen than nothing can resist become a write in assertive form pl
Prosper and developed but if youth is irresponsible and because idle / ~~skipped~~ in crisis situation like poverty, corruption and terrorism.

Conclusion;

Drug Abuse is rising concern; there should be more ways to combat this alarming situation by cooperating with youth and government. Youth is an vital part of state which play role in enhancing states prosperity and drug abuse cause many psychological and mental disorder, like anxiety depression and mental disorder.

There are some ways by which we can eradicate or mitigate this problem;

Government should take action on these situation and cooperate with youth in this situation to take them off from this mental trauma.

Youth should visit rehabilitation centre for their proper treatment.

Family should make good relationship with children to make their things easy between.
