Monsoon in Lahore 14:38

It's ~~not~~ <sup>but</sup> only the rain that comes with monsoon, ~~it~~ <sup>the</sup> also brings joy and happiness. The hide and seek of cloud with the sun, the wind, and the waving grass. every scene is a peice of art.

Monsoon has ~~always~~ enhanced the beauty of Lahore. The light showers, the heavy ~~rains~~, both make the green of leaves pop out. After bearing 40°C ~~what~~ summer, monsoon feels like <sup>a</sup> cool morning breeze.

Monsoon doesn't have all positives too, just like all of us. There is a significant increase in various ~~diseases~~, especially those related to gut health. Moreover, the still water in the streets, after rain, ~~all over~~ Lahore is a major issue for pedestrians. This still water also contributes to more ~~moquito~~ breeding and generally a bad odour. Despite all of these issues, monsoon ~~remains~~ beautiful and our beloved weather. These issues only highlight the ~~neglegence~~ in our system.
