

Title: Human being: The 1004acious one

Humans ^{are} known as homo-Sapiens. However, certain other anthropologists called them homo-Faber. The Smith, who made tools. Authov, combined aforesaid views into third one and called them talkative. He said ~~behind~~ all knowledge and doing things efficiently, ^{are} just because of language. It is responsible for all developments such as: laws, ethics, information and civilization. Without it, they would be the intelligent animals like the Yahoos of Gulliver's travels.
