Sir, there are few Questions:

1. When you have to write your introduction in "General-to-Specific," do you still need to add your second header like;

"Debunking the term Democracy"
as the keyterms have been explained in introduction paragraph when we follow this pattern ???

2. The topic asked only about if democracy is in danger or not but I still wrote about way forward. Is it irrelevant or not?

in order to prepper essay plz do have more writings and with better practice
