

Pak-Afghanistan: Role of China

China act as a mediator between Pakistan and Afghanistan relations which enhanced diplomatic ties between the two countries. Recently a trilateral meeting conducted in Beijing. Foreign Minister of Pakistan, Afghanistan and China were part of it. This trilateral meeting resultantly enhanced diplomatic ties between Afghanistan and Pakistan as both countries agreed their relations to ambassador level. This show a great improvement in bilateral ties which were tense from the time of return of Taliban rule. Through this meeting it is also discussed that Afghanistan's soil should not be used by militants including TTP against Pakistan as currently this is the major point of conflict between Pakistan and Afghanistan. As ~~Kabul~~ Beijing is close to both Kabul and Islamabad so it helps to elevated diplomatic ties between the two countries and first step towards this is trilateral meeting ^{that was} held in Beijing.
