Translation CSS (2016)

According to the ordinary people that, the freedom of State's law and public are opposite to each other. Apparently, this ^{is} consider as wrong, because every law implement some restrictions on their citizens. Similarly, if the number of laws are more in a state, then collective restrictions are also more. Moreover, more restrictions crush the freedom of individuals. In contrast, if the number of laws are less then there are wide range of freedom for the people.

CSS 2017 Translation

To known our's hidden defects, it is necessary to ~~consider~~ to known what our's enemy is consider us. This is because our friend often ~~heartfelt~~ admin our heartfelt, and they did not consider our defect as defect or they are in favor of us. Hence, may be the thought of not to feel the sad, or they keep it mysterious. In against that, our enemy is also criticise us and ~~opens~~ opens our defect from every corner. Moreover, in enmity he makes small things bigger. But in some extent this is true, because friends always increases their friend goodness and enemy defects. That is why we should kind-hearted to our's enemy. Therefore, he point out our defects and in that sense if we compare both, foe is better than friend.

Every era bring some type of matters, which no one likes, but they must be agree with that. Sometimes it is also happens, because maybe nature put somethings in front of us just to examine us. Either it is useless for us or we have no relationship with that, but we make it be a part of our life. This is also happening today. Similarly, every century is bringing some type of changes, which is absolutely new from the previous century. Moreover, the development of arts and natural science have give more things, which can be recognize waste for academic and economic process. In addition, nature gives us reward, and at the same time make that mandatory for us. Similarly, also said that to trash the skin of that, and if you do not remove that it will increase the filth of environment.
